Software Engineer

Software Engineer with 2 years of experience, well versed in Distributed System , Solution Architect , Databases , AI/ML Solution Architect & Cloud Services

TECHNICAL SKILLS

- **Languages**: Python, JavaScript, Java, SQL, HTML, CSS
- **Tools, Frameworks & Libraries:** React.js, Node.js, Express.js, Django, Git, GitHub, TensorFlow, PyTorch, OpenCV, LangChain, Docker, Jupyter Notebook
- **AI, ML & Generative AI:** Machine Learning, Deep Learning, Computer Vision, YOLO, NLP, LLMs, RAG, AI Agents, Prompt Engineering, Vector Databases
- **Data Engineering & Analytics:** ETL, Data Pipelines, Data Warehousing, Apache Spark,CS
- **Software Architecture:** DSA, OOP, System Design, REST APIs, Microservices, Design Patterns, Distributed Systems, Unit Testing
- **Cloud Services:** AWS, Azure, Kubernetes, Docker, CI/CD, GitHub Actions
- **Databases:** SQL, NoSQL, MongoDB, PostgreSQL, Vector Databases
- **Certifications:** AI-103-Developing AI Apps and Agents on Azure(Microsoft) , Software Developer Internship Certificate – Persistent InfoTech , Web Development Internship Completion Certificate – Academor, Smart India Hackathon 2024 – Internal Round Participant, Team AGREECULTURE, Sharda University (2024) , Deeksharambh 2024 – Volunteer Certificate of Appreciation, Sharda University

EXPERIENCE

Viblin India Private Limited – Software Developer, Noida, India April 2025 – March 2026

- Developed scalable full-stack applications using **React.js, Node.js, Express.js, and MongoDB (MERN).**
- Designed **RESTful APIs,** applying **OOP, System Design, and SDLC principles.**
- Improved application performance through **SEO, debugging, unit testing, and Git.**

Persistent InfoTech – Software Developer Intern, Delhi NCR, India Jan 2025 – March 2025

- Built responsive web applications using **React.js, Node.js, and JavaScript**
- Integrated RESTful APIs and AI **chatbots** to automate user interactions.
- Performed system testing, debugging, and Git-based version control.

Vivada Tech – API Developer Intern (Remote), Chennai, India Jul 2024 – Jan 2025

- Developed and tested **RESTful APIs** using Python and Django.
- Optimized backend services, database integration, and e-commerce transactions.
- Improved API reliability through debugging and **backend testing.**

Academor Tech Solutions – Web Developer Intern (Remote), Bengaluru, India May 2024 – Jul 2024

- Built responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Increased **user engagement by 15%** through frontend improvements.
- Developed **Django backend** services and **APIs** for e-commerce applications.

PROJECTS

- **AI-Driven IoT Crop Disease Management System:** Developed an AI-powered crop disease detection system using Machine Learning, YOLO, IoT, and Web Development, enabling real-time plant disease identification and smart agricultural monitoring.
- **Hybrid Facial Emotion Detection and Classification:** Designed an intelligent emotion recognition system using Machine Learning, LLMs, and NLP to analyze facial expressions and classify human emotions.
- **AI Study Helper:** Built a Generative AI and NLP-powered learning assistant integrating AI tutoring, automated notes generation, quiz creation, and summarization.
- **MedGuide AI:** Developed an AI-powered healthcare assistant using RAG, Agentic AI, and LLMs to simplify medical reports, retrieve relevant medical information, and generate context-aware explanations.

RESEARCH & PUBLICATION

- **Co-authored "Hybrid Facial Emotion Detection and Classification"**, peer-reviewed paper in the International Journal of Scientific Development and Research (IJSDR), Vol. 10, Issue 4, April 2025 (ISSN 2455-2631), improving accuracy and processing efficiency over existing CNN-based approaches by applying YOLO v3, deep learning, data preprocessing and model evaluation.

- **Co-authored the book chapter "Peace, Justice and Strong Institutions**: A Survey of Rural Villages in Greater Noida", Bhumi Publishing, May 2025 (ISBN 978-93-48620-99-6), addressing the lack of rural governance data by conducting a field survey and collecting and analyzing data with a research team.

EDUCATION

Guru Nanak Institute of Management (GGSIPU), Delhi, India 2025 – 2027 (Pursuing)
Master of Computer Applications (MCA)
CGPA: 9.0/10(First Division in First Year)
Relevant Coursework: Data Structures & Algorithms, Machine Learning, Artificial Intelligence

Sharda University, Greater Noida, India 2022 – 2025
Bachelor of Science (Hons.) in Computer Science
CGPA: 9.2/10 | First Division
Relevant Coursework: Python, Java, Data Structures, DBMS, Operating Systems, Computer Networks, Web Development.

Bal Bhavan Public School (CBSE), Delhi, India 2021 – 2022
Class XII – Senior Secondary Education
Percentage: 91% | Scored 90%+ in all subjects.

Bal Bhavan Public School (CBSE), Delhi, India 2019 – 2020
Class X – Senior Secondary Education
Percentage: 85% | Scored 80%+ in all subjects.
